Respected Sir,

I belong to Amarpur Block in the Banka district of Bihar. Amarpur is 25 KM away from Bhagalpur district and 18 Km away from Banka district. Amarpur is a Sugarcane & other Agri-products belt area and there are lots of "Gur Mill" in this area and one big Wine/Bear factory has come recently in this area. There is requirement of more factories/Mills related to Sugarcane and other Agri-products in this area. The profile of Amrapur located in the Banka district in attached for your kind information.

I have got huge land/infrastructure in acres at a very prime location in Amarpur Block to set up for a Mills/Industries. If You are interested to set up a Mill/Factory on Sugarcane products/Food Processing industries then I can offer my land to set up a Mills/Factories on leased basis. There is demand of industries on Agri-based products & Sugar cane products in this area. The Human resources are easily available in this area as most of the people are farmers in this area.

North part of Banka has generally a plain surface except the southern area adjoining Santhalpargana (Jharkhand). The land begins to rise at an easy ascent near or after of Banka, Barahat, so south of Banka hilly tracts commence. Thus the district of Banka has 60% of hilly area.

The river Belharni and Barua flows in the north-western area of the district. Chanan and Orhni flows from middle of the district. The river Cheer meets river Chanan in the north- eastern of Mandar Giri which rises in the east of Mandar.

The plains of Banka is formed from several streams of the these river. The plain area is very fertile.

These river are perennial. It almost dries in summer but are flood effect in rainy season.

Chanan and Barua rivers has been made useful by constructing embankments and channels. These channels irrigates the fertile lands as well as prevents floods also.

As a result of these channels water from rivers of the district is self sufficient in production of grain, fruits, vegetables etc.
