Subject :- Delay in starting the 7.5 MW bio-Mass power plant due to delay in clearance for the usage of ground water from the CWG / Minor Irrigation department

Dear Sir, 8.4.13

Thru this letter we wish to information you on the status of the 7.5 MW Bio-Mass based power plant in Bihya Industrial Area and our earlier letters to you on this subject.

We wish to update you that on the advice of Secretary Minor Irrigation Department , we are in touch with Mr Kishore Prasad, Director in the department for giving us the clearance for usage of Ground Water for our power plant. We were informed in December '12 by Mr Prasad that due to lack of policies in the state the Minor Irrigation department is not able to give us the clearance for Ground water usage and suggested we apply directly to Central Ground Water (CWG), PATNA. We had submitted the request to CWG with the details required by them. I am enclosing the letter we have received from CWG on this regard.

As our next action , we are waiting to receive the recommendation letter from Mr Kishore Prasad, Director Minor Irrigation. We will submit the recommendation letter to CWG , Patna along with Rainwater harvesting details requested by CWG and are hopeful of getting the same from CWG

We will keep you informed of the approval status from CWG.

Thanks and Best Regards

Mamta Dalmiya

Sub: Your application for NOC to abstract groundwater

Ref : Your letter dated 31.1.2013

Sir,

With reference to the above cited letter I am to state that your application is incomplete. You are required to submit your application adhering strictly to the new guidelines and incorporating all relevant details as below.

1. Comprehensive Rain water harvesting plan as per new guideline.
2. Referral letter from statutory agencies.

It is therefore requested to address the above mentioned points in all respects for evaluation of the proposal for NOC to be obtained from CGWA.

Yours faithfully,

27/2/13
